

TRANS-CLING™ CLEAR VISION

THE CLEAR CHOICE IN PRINTABLE FILM

Hard coated to bond to glass, Transilwrap has created the newest exciting printable film that is perfect for point of purchase window graphics, protective film and many other applications that fit your unique needs. This printable plastic is available in a number of opacity formats; including our incredibly translucent polyester that will have you touching the plastic to be sure it's actually there.

TRANS-CLING™ CLEAR VISION IS THE IDEAL PRINTABLE FILM WHEN YOU NEED A SOLUTION THAT:

- Can be easily applied to any wet or dry smooth surface
- Is perfect for interior or exterior applications
- Is able to be applied in almost any climate (minimum application temperature of 25 degrees Fahrenheit)
- Can easily be removed with no residue
- Has a smooth appearance without flow lines
- Has a mid-term application length less than one year
- Is "Green;" Trans-Cling™ Clear Vision is made of non-PVC plastic
- Meets federal product lead limits; Trans-Cling™ Clear Vision is CPSIA certified
- Does not require a top coating for conventional offset printing

DESIGNERS

Let your imagination run wild! Trans-Cling™ Clear Vision is ideal for creating spectacular designs for any point of purchase window graphics and advertising. Vibrant colors, precise logos and typeface, use of negative space, it's all possible with Clear Vision.
